Dear Parents and Carers,

As you will be all have seen we are nearly at the end of the substantial development works here in school. The MUGA was completed this week and the children couldn't wait to use this fabulous resource. We are now having works to develop our playground on the top yard, behind the school, and this includes an outdoor classroom which we are very excited about.

Thank you for bearing with us while we develop our grounds. We are in the process of arranging a range of community groups to enable organised sports activities in the MUGA. Updates to follow but if you would be interested in working with any community groups please get in touch.

We are also mindful of the space being used for community use beyond the school day. This is why the local authority developed the school field and the mini gym equipment at the bottom of the field. In addition to this space the MUGA will be open outside of school hours over the coming weeks and we ask that our community do not use the space to walk their dogs.

With best wishes

H. Hickinbottom
